C.E.O Message

OUR INTRODUCTION:

The objective behind live organic foods is indeed a noble and thoughtful one. It's a dream that can bring benefit to many. Being the CEO I would be more than delighted to share my story and how this brand came into existence.

It all started when I was merely a builder and one day came across a child on the street who was not only weak but severely malnourished. It came to my realisation that the children of our country need nutrition along with taste.

The purpose of this juice is to provide the children of our country with health as well as nutrients. It's not some ordinary juice, it's a health drink made with pure and fresh fruits.

No compromise to product quality.

Syed Bilal Bin Shahnawaz
CEO – Live organic Foods

Vision

Be the lead producer and market leader of quality consumer products leaving a positive image and impact.

Mission

To provide consumers with delicious, affordable and complementary beverages from wholesome healthy breakfast to evening treats, to create value and make a difference.
